## Software Developer | Full Stack Engineer

Compassionate, coachable, full-stack developer with a background in diverse fields. Currently, seeking a software engineer role where skills growth, problem solving, creativity are encouraged. I'm a fast-learner, self-directed learner and enjoying digging into a problem for a better, easier solution. My enthusiasm toward the process drives me to continue learning.

## Technical / Professional Skills

- Front-End Development -Javascript, CSS, HTML, React, Node, Node.js
- Deployment -github, Heroku, Netlify

- Back-End Development -Express, Ruby MongoDB/Mongoose, PostgreSQL, API development, Ruby on Rails

- SPSS -Statistical Analysis
- Mandarin
- Problem-solver, task Challenge
